

Must meet Post Office requirements.

Whenever possible, boxes must be located so that carrier's vehicle is off pavement when serving them.

Approach to box should be a hard, level surface (pavement, shoulder, gravel, etc.)

Box must be located so Carrier can serve without leaving vehicle.

On a cul-de-sac the boxes should be placed either on the way in or on the way out, not in front of individual homes.

Boxes may be replaced in original location, provided that location meets criteria noted above. Contractor is not obligated to repair sub-standard Box mountings other than those damaged by construction activity.
